My name is Daniel Clayton I'm writing the letter to say thank you for your generous donation/help from you for the benefit that was thrown for me. With your donation and the help of other donations from that benefit we were able to raise a good amount to be able to help me get back into therapy. Again I would like to say thank you it means a lot to have people that are willing to help and go out of their way to help someone else in need.

Thank You

Daniel Clayton
